

**DASH LTD. KAKANJ
BOSNIA AND HERZEGOVINA**

**BERAU FOR LINKING YOUNG PEOPLE
WITH THE GOAL OF GAINING
PRACTICAL KNOWLEDGE**

SARAJEVO, 2016.

MOTIVE

- Our greatest wealth are young people eager to learn, work and to prove themselves
- Insufficient work with young people and incompetence of young people for the challenges of the labor market

Key characteristics and advantages of the project

- Involvement of professionals in the implementation of vocational training of college students and high school students.
- Collaboration with employers during the realization of the project
- Young people leaving school ready to respond to the labor market, and are also at the service to employers and potential investors .

Project implementation

- Registering the bureau in the Sarajevo area
- Planned to engage young, creative people, which will work in this center and be in contact with students and pupils.
- Cooperation with educational institutions
- Create unique database to enable the employers to access the information about the students that are most suitable for their business.
- Opening similar centers in other regions of Bosnia and Herzegovina.

Financial analysis

- The total investment of the project is EUR 114200,00.
- Joint venture: 90 % Investor, 10% own.

Description	The starting capital	Working capital (monthly charges)
	Car x3 = 30000,00 KM	The rent = 700 KM
	Laptop x5 = 12000,00 KM	Overheads = 300 KM

Total investment	The starting capital+Working capital*12=54000+14100*12= 222700,00 KM	

EXCEPTIONATIONS

- We hope that potential investors recognize the importance of this project and help young people to acquire the necessary skills from the industry sectors for which they are being educated.
- We want with this project to awaken the consciousness of all levels of government and educational institutions to be supporting young people during the realization of this project.
