Building to be reconstructed

CONSTRUCTION AND ESTABLISHING OF A CENTER FOR AUTISM AND EARLY DIAGNOSTICS IN BIH

PROJECT OBJECTIVE:

To strengthen the capacity of public health in BiH through construction and equipping of an institution enabled for provision of early diagnosis for all disorders and treatment of children / people with autism.

LOCATION:

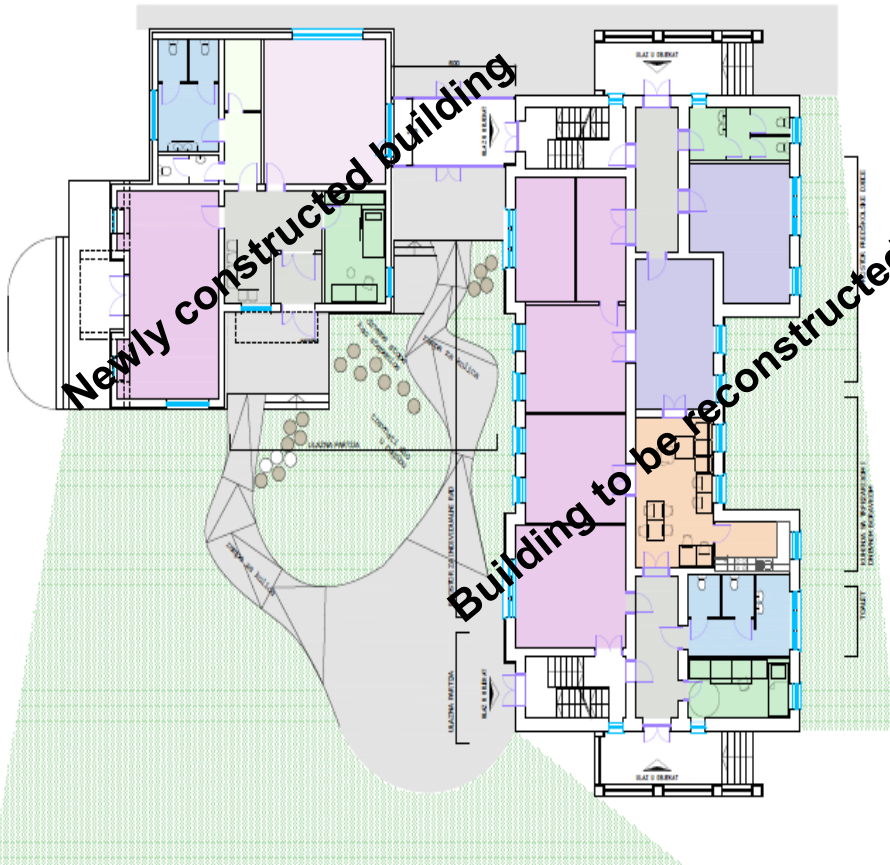

BIH, TUZLA CANTON

TUZLA CITY, SETTLEMENT BUKINJE

CONSTRUCTION AND ESTABLISHING OF A CENTER FOR AUTISM AND EARLY DIAGNOSTICS IN BIH

Background:

- Autism growing problem in BiH
- There is no comprehensive institution in BiH dealing with autism and diagnostics
- Existence of other correlated institutions in Tuzla Canton
- Signed MOU between: Tuzla Canton, Tuzla City and Hilfswerk Austria International (HWA)
- Signed Contract for the project co-funding between Tuzla Canton and HWA

CONSTRUCTION AND ESTABLISHING OF A CENTER FOR AUTISM AND EARLY DIAGNOSTICS IN BIH

Key characteristics and advantages of the project:

- The institution will be a referent center in BiH and will have a strong positive impact on the social health system and quality of life of families with disabled (autistic) persons (children).
- Early diagnosis and intervention improves and saves lives of children.
- Improvement of the investor brand image and CSR (Corporate Social responsibility) position in BiH as a new market, in context of social engagement.

CONSTRUCTION AND ESTABLISHING OF A CENTER FOR AUTISM AND EARLY DIAGNOSTICS IN BIH
